

Open your ears and heart...an inward vision of worlds unfolding. Lenses of Life presents everyday people with extraordinary life stories that connect us to our global village of Mother Earth. Our conversations help to dispel myths, remove barriers, decrease fears and increase respect. Their lives reveal struggle, failure, healing, awareness and unfoldment as they become more of who they are in their Spirit Identity.

Welcome! Our purpose is to highlight the common Spirit among a diversity of peoples. The sharing of life stories, challenges, and changes that inspire overcoming barriers. The variances of viewpoints social, political, spiritual, and personal will offer the audience opportunity to experience a myriad of journeys, feelings and choices. Some points of view will challenge the audiences' personal beliefs or stance by providing critical and diverse food for thought. Lenses of Life Podcast is an audio optic path as described through your lens of life.

Process:

- Pre-interview determines eligibility – if eligible:
- Recording date/time set
